

flexiFED 4^{Elect}

The ideal plan for mature families looking for all-encompassing cover

As part of our new flexiFED option range that gives members more control over how their cover is structured, flexiFED 4^{Elect} is perfect for more mature families who want cover that leaves nothing to chance.

Its core benefit bundle – or the basic cover that you enjoy on this option – provides you with sound in-hospital benefits, chronic benefits, screening benefits, and day-to-day benefits, that include additional benefits like unlimited network GP consultations always paid from Risk and never from Savings.

This option has a Threshold Benefit, which means you can submit claims to accumulate to a predetermined threshold level after which they will be paid from the Threshold Benefit. You will have a 20% co-payment on all claims.

On flexiFED 4^{Elect}, you've chosen to pay a fixed excess of R11 500 on all hospital admissions, except for emergencies, and by doing so, you're saving 25% on your monthly contribution. This excess applies to the hospital bill only; you could still have co-payments on out-of-network specialists, a procedure co-payment or shortfalls because benefit limits have been exceeded.

On this option you also have access to a MediVault and Wallet facility, a predetermined amount available for your day-to-day medical expenses, which you only start paying back over a 12-month period once you start using it.

Please see the following pages for more details on the flexiFED 4^{Elect} core benefit bundle and what it offers you.

We let **you be YOU**
