SECTION 1 MEDIVault TERMS AND CONDITIONS

These are the terms and conditions that will apply to the activation and use of your MediVault and Wallet, which is available to all active Members of the Scheme who are on the flexiFED Range.

The maximum, interest free, loan amount that is available in your MediVault, has been pre-determined in line with your selected benefits option and Family Size or Composition. You can decide how much of the total amount available in your MediVault you choose to transfer to your Wallet, at any time during the benefit year. The maximum repayment period for the amount transferred into your Wallet will be 12 months.

MediVault	This is the maximum loan available to a qualifying member. The amount available is determined by the member's selected benefit option and Family Size or Composition. This loan only becomes available on acceptance of the terms and conditions as contained in this document.
How the MediVault works	After the member has accepted the terms and conditions and on a member's instruction, the Scheme will transfer an amount from the member's MediVault into the member's Wallet. This transfer activates the member's loan and the maximum repayment period for the amount transferred will be 12 instalments (interest-free). The first instalment will become due on the first (1st) day of the month following any transfer of an amount from the member's MediVault into the member's Wallet before the tenth (10th) of the month any transfers after the tenth 10th will become due in the following month. The member may instruct the Scheme to transfer any amount (up to the pre-determined maximum or minimum) at any time during the benefit year (also see General Provisions below).
Wallet	This is the account which will hold any amount which the member has instructed the Scheme to transfer from their MediVault. This is also the account from which the Scheme will fund any claim for a Relevant Healthcare Service (as defined in the Medical Schemes Act 131 of 1998) once the member's Medical Savings Account has been depleted.
How the Wallet works	On instruction by the member the Scheme will transfer an amount from the member's MediVault into the member's Wallet, which will then become available to the member for the funding of any claim for a Relevant Healthcare Service. A claim will only be funded from the member's Wallet once the member's Medical Savings Account has been depleted.
Participating Paypoint Group	A paypoint that is willing to facilitate and/or contribute 100% towards the Member's instalment.
Repayments	<ul style="list-style-type: none">• Repayments are calculated based on the amount a member has instructed the Scheme to transfer from their MediVault to their Wallet.• The maximum repayment will be in 12 equal instalments, except rounding, over a 12-month period (which may overlap into a new benefit year).• A member may make additional repayments but the instalments will remain constant until the loan is repaid.• A member can select a short repayment period, and repayments will be in equal instalments (except rounding).• The repayment will become due on the first (1st) day of the month following the transfer of an amount from the member's MediVault to the member's Wallet (irrespective of whether the amount in the member's Wallet has been used or not) before the tenth (10th) of the month any transfers after the tenth 10th will become due in the following month.• The member can select a repayment date of either the twenty fifth (25th) or the first (1st) of the month.• The debit order repayment amount will be adjusted with any subsequent loan activations. The repayment does not form part of the member's monthly contribution.
Relevant Healthcare Services	Any healthcare treatment as defined in the Medical Schemes Act 131 of 1998.
Family Size or Composition	Principal Member Only = M0 Principal Member + 1 Dependant = M0+1 Principal Member + 2 Dependents = M0+2 Principal Member + 3 or more Dependents = M0+2+
